FISCAL YEAR REPORT

HISTORY OF ZONING AND THE PLANNING COMMISSION

According to historical records, in 1939, the City Council adopted Ordinance No. 166, establishing the first rudimentary zoning classifications and regulations in the City. Over the next several years, additional basic zoning ordinances were adopted culminating in 1953 with the adoption of Ordinance No. 313, which established the “Official Land Use Zoning Ordinance” for the City. While this action represented a substantial leap forward, the Zoning Ordinance was still very basic and difficult to interpret. Additionally, in 1953, graduate students from the University of Southern California (USC) published a comprehensive report entitled “Research for Planning” of the Community. This 1953 report was the first comprehensive economic and planning study of the City. The report praised the City for the advancements it had made in land use planning. Up to 1953 and the adoption of the Zoning Ordinance, zoning decisions were made by the City Council.

According to Department files, the first City Planning Commission consisted of five members and was established by the City Council in early 1938. The Planning Commission is the oldest permanent advisory Commission established by the City Council.

RESPONSIBILITIES OF THE PLANNING COMMISSION

The Planning Commission performs the functions, duties and powers provided in the State of California Planning and Zoning Law referred to in Section 2.22.010. The Planning Commission conducts public hearings to consider land use matters, such as the adoption and amendment of the City General Plan, zoning ordinances, specific plans, amendments, conditional development permits, variances and land divisions. It functions in an advisory role to the City Council on practically all matters of land use. It also initiates and directs special land use studies as directed by the City Council.

The Planning Commission is comprised of seven (7) commissioners who were appointed by the Mayor and City Council to serve four-year terms. The Commission meets regularly on the second and last Wednesdays of each month, and may meet in other workshop and special sessions as necessary.

OTHER PROJECTS CONSTRUCTED	
-----------------------------------	--

1. 210 Logistics II:

In 2013, the Planning Commission approved entitlements for a 763,640 square foot cross-dock warehouse located north of Base Line Road, south of Miro Way, east of Linden Avenue, and west Maple Avenue. The property remained vacant for approximately one year and the building has been constructed.

2. Prologis 4:

On May 8, 2013, the Planning Commission approved Variance No. 698 to allow an increase from the maximum allowable building height for a proposed 677,225 square foot distribution warehouse located on Tamarind Avenue approximately 600 feet north of Base Line Road. The building was under construction when the last Planning Commission Update and is now completed.

3. Chevron:

The Chevron/Extra Mile at 2035 N. Riverside Avenue in the Shoppes at Creekside development at the 210 Freeway is now complete and the facility is in operation.

4. **Medline Industries:** Construction of the 1,070,320 square foot Medline distribution center at Locust Avenue and Miro Way is nearly complete and a Certificate of Occupancy will be issued shortly.

5. **Niagara Water:** The 600,000 square foot water bottling facility for Niagara at the corner of Alder Avenue and Miro Way is complete, occupied and operational.

FUTURE PLANNING COMMISSION ACTIVITIES

In addition to the many regular items that the Planning Commission reviews, there are, at this time, several major projects and plans that the Commission is scheduled to review in 2015/16:

- Renaissance Specific Plan Revision and Subsequent Environmental Impact Report

The Renaissance Specific Plan Amendment (RSPA) is an amendment to the approved 2010 RSP. The 2010 RSP consists of approximately 1,445.3 gross acres located within the western/central portion of the City. The Specific Plan is planned as an integrated community of varied housing types located near and linked to places of employment, retail outlets, services and schools. The RSP at the time of approval was planned to accommodate 16.2 million square feet of business and commercial uses (835,200 square feet of which were existing and would remain), 1,667 residential units, one school, a community park, and multiple neighborhood parks all located in proximity to one another and organized in a grid pattern.

The RSP Amendment proposed the relocation of business and industrial uses to the west of Linden Avenue; relocation of all residential land uses and the public park to the east side of Linden Avenue; and implementation of the Renaissance Marketplace retail development and the Planning Area 108 industrial/warehouse development. In addition to the Specific Plan Amendment, the project includes the Renaissance Marketplace consisting of an approximately 505,500 square foot retail center as well as the Planning Area 108 development comprised of approximately 4 million square feet of industrial/warehouse uses. These developments were not specifically identified in the 2010 RSP.

- General Plan Housing Element Update
- Habitat Conservation Plan for the Delhi Sands Flower-Loving Fly (DSFLF)
- Pepper Avenue Specific Plan

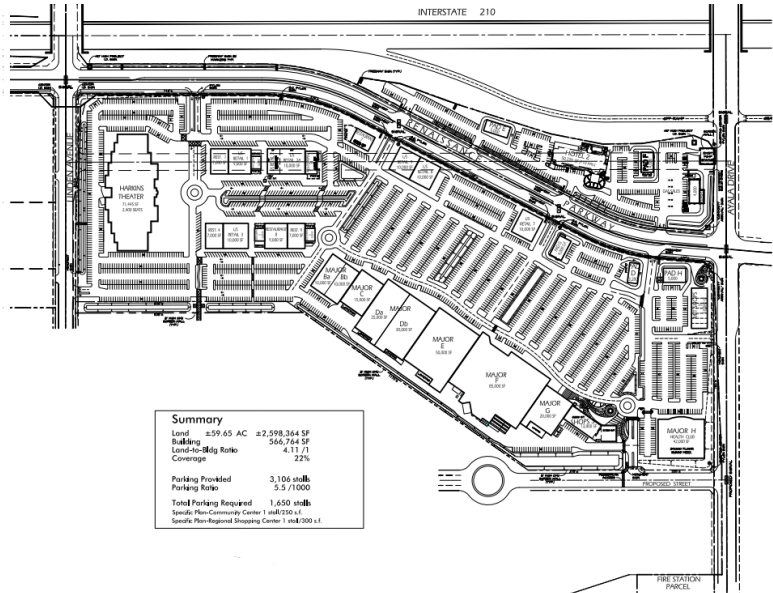

The Pepper Avenue project is a planning effort of 101.7 acres initiated by the City of Rialto in order to guide future development for these mostly vacant parcels located at the north eastern portion of the City. The Project is at an opportune location to create an entry gateway statement to Rialto. Once developed, the Project will also serve as a new source of tax revenue for the city, and utilize predominantly vacant land, and will serve the city's commercial and residential needs all while preserving the site's natural habitat. Three land use designations have been designated for this project: Community Commercial, Open Space, and Public Facility. Additionally, two land use designation overlays have been proposed: Community Commercial and Multi-Family Residential.

1. The Community Commercial land use designation will allow for up to 462,000 square feet of retail and 125,000 square feet of business park uses.
2. The Open Space land use will preserve nearly 30 acres of habitat for Riversidean Alluvial Fan Sage Scrub (RAFSS).
3. The Public Facility designation contains an existing West Valley Water District (WVWD) facility that consists of existing pump stations, water supply wells, and a reservoir.

- 4. The Multi-Family Residential Overlay allows for the option of up to 275 units subject to a reduction in the retail square footage.
- 5. A Community Commercial Overlay Zone will allow a limited development on approximately 6.3 acres, to allow future developers flexibility to attract a wider variety of tenants on the western side of Pepper Avenue.

- Revised General Plan Circulation Element and Non-Motorized Transportation Element
- Model Mining Development Code Amendment
- Storage Facilities Development Code Amendment
- Existing Wal-Mart re-use plan
- Renaissance Marketplace shopping center (505,000 square feet of retail/commercial/entertainment land use)
