IV. CONSUMPTION & BILLING

A. Consumption

Water consumption has decreased by 10.2% when compared against previous month. When compared against last year, consumption has decreased less than 1%.

B. Billing

A total of 22,875 bills were mailed or sent out electronically in October. Billing accuracy was 99.9% with eight (8) requiring adjustments after bill generation.

V. REVENUE & AGING

A. Revenue

Water revenue has decreased 6.4% when compared against the prior month and increased 13.6% when compared against previous year. Sewer revenue has decreased 1.3% compared to the prior month and increased by 4.9% from last year. The rise in revenue is mostly attributed to recent rate increase in January 2025.

(Please consider the scale of the graph as doubled height does not mean double the amount)

B. Aging

The total aging balance has decreased by 7.0%, *see first table below*. For balances >30-days only, water has decreased 2.9% and wastewater has increased by 10.4%. Sewer gaining balances are expected to continue rising until tax roll in year 2026.

C. Bad Debt

Eleven (11) accounts were sent to collections for a total amount of \$3,670.61. These bad debts arise from customers moving out or selling the property and not closing the account with final payments.

VI. SERVICE ORDERS

349 service orders were initiated by the customer service team during the reporting month. Of this total, 73 service orders or 21% were due to occupant changes.

216 service orders were initiated to accommodate water disconnection for non-payment and reconnection of water services when customer set up (or reinstate) a payment arrangement with down payment.

VII. OTHER ACTIVITIES

The CS team member that was out on disability has returned to the office this month.

CS team is continuing to work with the City, developer (Lennar) and purchasing to plan ahead and minimize the delays of future water meter needs.

VIII. REVENUE REPORT

A. Revenue Summary

Cash Revenue is compiled and reconciled to the merchant account on a daily basis. Cash receipts and deposits are made daily and internal controls are reviewed regularly to ensure safeguarding of assets and proper recording of all transactions. Total revenue collected in October 2025 is \$4,968,000 whereas Non-Rate Revenue is \$662,000; Utility Revenue is \$4,227,000 and Tax / Ambulance Revenue at \$79,000.

RWS collects Utility User Taxes and Ambulance Fees on behalf of the City of Rialto. The Utility User Tax (UUT) rates are based on the total billed amount, therefore the collection fluctuates as billed amounts change. The total UUT charges collected in October 2025 and October 2024 are \$74,000 and \$278,000 respectively. The large variance in collection of UUT charges is due to the City exempting UUT charges to the Residential customers beginning January 2025 through December 2025. Ambulance Revenue is also collected on behalf of the City of Rialto totaling \$5,000 in October 2025 and \$5,000 in October 2024.

B. Non Rate Revenue - Extraterritorial Customers

RWS bills the City of Fontana \$133,000 each month for extraterritorial sewer usage.

Colton Unified School District is in agreement with RWS to pay \$5,000 monthly for sewage connections based on enrollment rates provided each school year.

An extraterritorial agreement to provide sewer service was executed between the City of Rialto and the County of San Bernardino—County Service Area 70, Zone BL (Bloomington).

This housing development project generates extraterritorial sewer service revenue of \$20,000 per month.

The City has an agreement with Social Science Services dba Cedar House Life Change Center to provide extraterritorial sewer service providing sewer revenue of about \$5,000 each month.

C. Non-Rate Revenue – Other

Other revenue is generated by leasing space for cell towers to AT&T, which has two leases at \$2,073 and \$1,500. Sprint lease is at a currently contracted rate of \$2,000 each month. Vertical Bridge also provides \$2,400 a month of cell tower generated Revenue.

Rialto Bioenergy Solutions subleased a City property for \$10,750 a month.

The City and San Bernardino Valley Municipal Water District have entered into a Brine Line Capacity Agreement on October 23, 2021. This agreement pertains to the use of its interest in the SARI Line and discharge of certain brine waste to the SARI Line exclusively from the operation of Rialto Bioenergy Facilities within the City’s boundaries. The revenue generated in this agreement consists of quarterly rent of \$37,500 along with the Fixed Pipeline Capacity Fee of \$3,300 per month and Fixed Treatment Plant Capacity Fee of \$3,300 per month. In addition, a variable fee of any discharge costs are also billed.

The San Bernardino Valley Water District (SBVWD) reimburses RWS for water conservation programs provided to customers. A quarterly bill is delivered directly by the City.

D. Development Impact Fees

Development Impact Fees (“DIF”) are paid to the City of Rialto as various developments are completed in the City. As such, the City of Rialto receives monies from the various developments, which is then distributed to RWS. There was no DIF payment received in October of 2025.

E. Rialto Basin Water Rights and Leasing

A Standby Water Lease Agreement between Fontana Union Water Company and City of Rialto is in effect. For the Water 2023-2024 Water Year, RWS received a payment from San Bernardino County the amount of \$332,624 for Standby Charges and Production Charge.

In addition, the County is also billed annually for Rialto Well #3’s summertime electricity costs based on peak usage.

RIALTO WATER

MONTHLY OPERATIONS REPORT

I. EXECUTIVE SUMMARY

Highlights of this month's Water O&M report include the following:

- The water distribution network achieved compliance with all permit requirements.
- No sample anomalies that require secondary sampling.
- No significant issues with water availability. The purchasing of water remained consistent and daily equalization tanks levels remained at anticipated volume for customer availability.
- The Preventative Maintenance Program, as well as Valve Exercising, continues to identify areas of focus for our Routine Repair and Replacement.

A. Water Production Totals

Total water delivered into the Rialto system this month was 898.15 acre-feet. 793.06 acre-feet was delivered into the system from the groundwater wells (City 4A production is included in the well total). 50.17 acre-feet was delivered via the BLF transmission system (City 4A production has been deducted). 54.92 acre-feet came from the OPRTP.

B. Static Water Levels

All City of Rialto wells are sounded each month, both active and inactive well sites. Depth-to-water is measured from the well head to the static water surface. Increases in depth-to-water represent a decrease in static water level.

C. Violations

No violations were received during this reporting period.

D. Source Water Total Dissolved Solids (TDS)

Veolia has a goal of maintaining an acceptable blended TDS level between all its sources. This goal is achieved by shifting production to or from the lowest TDS wells or purchased low TDS water while adhering to the overall water supply strategy and meeting system demands. The TDS was 236 mg/L for the month of October as compared to 250 mg/L in September. The TDS levels are below the secondary maximum contaminant level requirements.

IV. CHEMICAL USE

Sodium hypochlorite is the only chemical added to the water system. A total of 3330 gallons of sodium hypochlorite was used in October as compared to 3295 gallons used in September.

V. ELECTRICAL USE

Southern California Edison (SCE) has not provided all of the data for October 2025. We will provide the data as it is received, thus will include yearly usage received to date.

VI. WATER QUALITY COMPLAINTS

No complaints were received during this reporting period.

VII. OPERATIONS UPDATE

The overall operational strategy is to meet the daily water demand. The City of Rialto water system has six operational wells, one of which is owned by the County of San Bernardino and operated by Veolia; Oliver P. Roemer Treatment Plant (OPRTP), which is jointly owned by the City (25%) and West Valley Water District (WVWD); purchased water through the Baseline Feeder (BLF) system from San Bernardino Valley Municipal Water District (SBVMWD); and, if required to meet demand, additional water can be supplied by the City of San Bernardino (CSB) through the BLF for emergency supply only with no guarantee of actual delivery. Water produced from City Well 4A discharges into the BLF and its production is included in deliveries from that shared transmission line when City Well 4A is in service.

The overall pumping strategy is based on adjudicated rights, well availability, remediation requirements, and quality of source, cost to operate, and varying weather conditions. TDS effluent concentrations for the City of Rialto WWTP are taken into consideration when operating the facilities and water sources.

A. Operational Wells

EW-1 well was out of service due to pump issues. OPRTP meter was turned off in October.

B. Valve Activity

On the basis of information collected in 2019, Veolia now has a baseline assessment of all valves and has initiated a new cycle of valve exercising. Five valves were exercised in the month of October.

DDW performed field site visits on May 22 and August 22, 2024. The results of the sanitary survey were received on September 19, 2024. All minor deficiencies have been corrected and submitted to DDW.

VIII. ASSET MANAGEMENT

The following work orders were completed by Water production staff for the month of October:

- Preventive Maintenance –253
- Corrective Maintenance –0
- Predictive Maintenance –0

299– PMs planned for November 2025

A. Main Breaks, Service Leaks, Adverse Water Quality and Health/Safety Issues

The following work orders were completed by Water distribution staff for the month of October:

- Main line – 1
- Service line – 5
- Hydrants - 4
- Angle Meter Stop – 9
- Meter Box & Lid Replacement – 3
- Meter Leaks/ Replacements - 12

B. Major Equipment and/or Machinery Outages

EW-1 well was out of service due to pump issues. OP RTP meter was turned off in October.

MONTHLY OPERATIONS REPORT

EXECUTIVE SUMMARY

Highlights of this month's Wastewater O&M report include the following:

- The treatment plant performed well and met all compliance parameters.
- There were no residential call-outs for sewer-related issues.

1. Collection System/Customer Service Log

a. Collections group activities this month:

Category	Current Month Statistics	Prior Month Statistics	2025 Year to Date Statistics
Sanitary sewers are cleaned using the conventional method, including feet, which includes "Hot spot cleaning."	23473	26,748	212,476
Sanitary sewers assessed using the SL-RAT method, feet	0	0	21,112
CCTV Inspection, miles (26 is the annual goal)*	2.93	3.49	23.71
Manhole Inspections	0	1	39
USA Dig Alert Markings, count	26	18	324
Residential call-outs	0	3	21
Sanitary sewer overflows	0	1	2

b. S.S.O. N/A

c. Customer Service Call Outs – See Item 9 for details.

2. Wastewater Treatment Plant – Monthly Overview

- NPDES discharge compliance parameters were achieved.

a. Significant events during the month were:

None

3. Treatment Facility Performance/Laboratory Activities

- a. See the attached Table 1, Monthly Performance Summary.
- b. Summary of Notices and Laboratory Tests/Reports filed with government agencies.
The monthly submittal of State/Federal discharge monitoring reports was completed promptly.
- c. Effluent specification exceedance discussion
See Section 2 above. N/A
