TAB 1

**Letter in Response to a Cease and Desist
Letter received from the Channel Law
Group**

Eric Vail, City Attorney, presented staff report for City Council Consideration of a letter in response to a Cease and Desist Letter received from the Channel Law Group.

RECOMMENDATION:

It is recommended that the City Council:

Approve the letter in response to a Cease and Desist Letter from the Channel Law Group.

0o0

Council Member Trujillo stated that the purpose of the letter is that there was no legislative platform for California. He wants to ensure that moving forward, the information is in writing and available for the City Council for approval and provide input.

He wanted to emphasize that the City holds public meetings and is transparent versus behind closed-door State meetings with stakeholders that the City is not at the table.

He stated AB1000 has died in committee. He chose to move this forward for legal purposes and wanted to make certain he voiced his concerns and the actual purpose this is acted upon.

0o0

TAB 1

**Letter in Response to a Cease and Desist
Letter received from the Channel Law
Group**

Council Member Baca stated State Legislatives should have notified the City Council in advance. On that particular day it was brought to our attention at the City Council meeting, and this is the reason a letter has been submitted by an attorney stating that the City Council had violated the Brown Act. It should have been part of Public Notice. There was no Public Notice ahead of time that this Item was going to be on the agenda, so the public did not have an opportunity to give their input in support or opposition of AB1000.

It was brought up by Council Member Rafael Trujillo. It was not printed on the agenda and believe it is the reason why the letter was received.

The City Council has a responsibility to let the public know, it should be printed in advance to give them an opportunity to voice their input or write their comments. He wanted to state and correct for the record that we did not allow the public at that time to give their input prior to the meeting. We only allowed the public to speak for those in attendance and not those who were unaware the Item was on the agenda.

0o0

Mayor Robertson thanked everyone for their comments. If time and frames are tracked in the committee's action were being heard, it can all go back to a timeline and know the reason for the City Council to move with a Subsequent Need Item, because it had been elevated to a committee.

Moving forward, the City has a legislative representative under contract under the State and Federal level. Subcommittee meetings were held while Bills were still being crafted and submitted in mid-February.

She asked that the City's legislative representative be at the April 23, 2024 City Council meeting agenda with an update.

ARK Strategies will be on the next City Council agenda.

0o0

Motion by Council Member Scott, second by Council Member Trujillo and carried by a 5-0 vote to move to respond to the Cease and Desist Letter received by the Channel Law Group.

RECOMMENDATION

Staff recommends that the City Council:

City Attorney Vail stated correct.

He clarified that "termed out" for existing term members is not correct. What is proposed in this Ordinance is a term limit of three, four-year terms going forward. We will not count anybody's existing term. It does not term anybody out. An existing Commissioner can serve on the Commission for another 12 years if they were appointed by the City Council.

We do that because that follows the rule that we follow when a City adopts term limits for City Council Members. They are only prospective in application. They do not count what they have already served. The same rule is applied here. The City Council can change that should they choose to. What has been proposed is a prospective only. When new terms are established, the term limits will run from for example, June 2024 forward. They won't apply to what somebody has already served.
