5 **OTHER FACTUAL INFORMATION:**

6

7 P-1 showed me his bodycam footage of the incident on scene, utilizing his cellular device. Sergeant J.
8 Rodriguez, ID 21422, was provided a website link to an online database to observe the bodycam footage
9 worn by P-1. The bodycam was located near the abdomen of P-1; thus, I was unable to see P-1's point of
10 view. The bodycam footage revealed what seemed to be V-1 parked along the north curb of Rialto Ave.,
11 east of Cactus Ave. P-1 was utilizing his mobile computer device. Suddenly, P-1 placed his vehicle in
12 drive, accelerated rapidly, and made a strong jerking movement to the left with the steering wheel towards
13 the left turn lane of Rialto Ave., at the intersection of Cactus Ave. I was able to observe the light was green
14 for westbound traffic. P-1 did not slow down V-1, executed an aggressive turn to the right, causing his tires
15 to screech. Simultaneously, P-1 began to raise his right hand towards the control panel for the emergency
16 lights and siren, located near the rearview mirror of V-1. I continued to hear tires screech, and then heard
17 the traffic crash. After the impact, I heard V-1's audible siren.

18

19 After the crash, P-1 exited his vehicle and checked on the well-being of P-2 and V-2's passenger. As the
20 footage continued, I was able to hear P-2 and Passenger Cervantes tell P-1 that he did not have his lights and
21 siren on. At no point did P-1 contest their statements.

22

23 P-1 advised me that he was not logged into his patrol vehicle's dashcam prior to the crash.

24

25 Due to the safety parameters of the website, I was unable to download a copy of the footage. No further
26 videos of the incident have been provided by the Rialto Police Department.

27

28 At the time of the crash, P-1 was on-duty as an Officer with the Rialto Police Department and was wearing a
29 departmentally approved black uniform while driving a fully marked black and white Rialto Police
30 Department patrol vehicle.

1 **STATEMENTS:**

2

3 **Party #1 (P-1, Villasenor)** was contacted at the scene where he related to me the following information:
4 P-1 was driving **Vehicle #1 (V-1, Ford)** within the westbound left turn lane of Rialto Ave., approaching the
5 intersection of Cactus Ave. at approximately 5 miles per hour. P-1 activated his emergency lights and siren
6 due to a pursuit occurring north of his location. P-1 observed a vehicle stopped within the westbound #1
7 lane of Rialto Ave., west of the intersection of Cactus Ave. P-1 did not see V-2 prior to the crash. P-1's
8 light was green, so he accelerated to approximately 10 miles per hour, and proceeded to make a right turn to
9 head northbound onto Cactus Ave. from the left turn lane. Suddenly, P-1 felt an impact to the right side of
10 his vehicle. After the crash, P-1 stopped his vehicle to check on the wellbeing of P-2 and V-2's passenger.
11 P-1 relocated his vehicle to expedite traffic and awaited CHP arrival.

12

13 **Party #2 (P-2, Chavez Jr.)** was contacted at the scene where he related to me the following information:
14 P-2 was driving **Vehicle #2 (V-2, Honda)** within the westbound #2 lane of Rialto Ave., approaching the
15 intersection of Cactus Ave. at approximately 5 miles per hour. P-2 related prior to entering the intersection
16 he heard a siren coming from a separate patrol vehicle entering the intersection northbound on Cactus Ave.,
17 south of Rialto Ave. P-2 stopped his vehicle and allowed the patrol vehicle to travel through the
18 intersection. After the intersection was clear, P-2's light was green, so he began to proceed through the
19 intersection at approximately 5 miles per hour. P-2 related he did not see V-1 due to a vehicle to his left
20 within the westbound #1 lane of Rialto Ave., west of the intersection with Cactus Ave. P-2 did not hear an
21 audible siren, nor did he see V-1 prior to the crash. Suddenly, V-1 was directly ahead of him, and they
22 crashed. After the crash, P-2 put his vehicle in park, and was assisted by Rialto Police Department
23 personnel. Rialto Police Department personnel assisted P-2 in moving V-2 to the north curb of Rialto Ave.,
24 west of Cactus Ave. P-2 remained on scene and awaited CHP arrival.

1 **SUMMARY/CAUSE:**

2

3 **Party #1 (P-1, Villasenor)** was driving **Vehicle #1 (V-1, Ford)** within the westbound left turn lane of
4 Rialto Ave., approaching the intersection of Cactus Ave. at approximately 5 miles per hour. V-1 was to the
5 left of V-2. **Party #2 (P-2, Chavez Jr.)** was driving **Vehicle #2 (V-2, Honda)** within the westbound #2
6 lane of Rialto Ave., approaching the intersection of Cactus Ave. at approximately 5 miles per hour.

7

8 This crash was caused due to P-1's improper position for a right turn. A circular green light illuminated the
9 intersection allowing westbound traffic to proceed through the intersection. A separate Rialto Police
10 Department officer was involved in a pursuit north of the intersection. P-2 yielded for a Rialto Police
11 Department vehicle heading northbound through the intersection with emergency lights and siren activated.
12 P-1 executed a right turn from the left turn lane (22100(a) VC- Improper Position for a Right Turn) and
13 entered the intersection. Simultaneously, P-2 entered the intersection. Due to P-1's improper position for a
14 right turn, as P-1 proceeded northbound through the intersection in front of V-2, the front left of V-2 crashed
15 into the right side of V-1 (AOI #1).

16

17 After the crash, both parties stopped their vehicles within the intersection. P-1 checked on the wellbeing of
18 P-2 and V-2's passenger. V-2 was moved by Rialto Police Department personnel to the north curb of Rialto
19 Ave., west of Cactus Ave. P-1 drove V-1 to the east curb of Cactus Ave., north of Rialto Ave. Both parties
20 remained on scene and awaited CHP arrival.

CLAIM INSPECTION

STATE FARM INSURANCE COMPANIES has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles advertised for sale by dealerships or private parties. CCC also obtains vehicle sales prices from a database of California Department of Motor Vehicles vehicle registration sold transactions. All of these sources are updated regularly.

SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the straight average of the adjusted values of the comparable vehicles.

STATE FARM INSURANCE COMPANIES uses condition inspection guidelines to rate the condition of key components of the loss vehicle on a three-point scale. A rating of average condition results in a valuation of that component that is consistent with typical vehicles for that year, make and model of vehicle. If a component is rated in exceptional condition, then a positive monetary adjustment is made to reflect the impact of that condition level on the value of the loss vehicle. Similarly, if a component is rated in below average condition, then a negative monetary adjustment is made to reflect the impact of that condition level on the value of the loss vehicle. Inspection Notes, if any, reflect additional observations from the appraiser regarding the loss vehicle's condition. Monetary adjustments are based upon market research consisting of data gathered from dealerships in California.

CCC makes dollar adjustments that reflect the impact the reported condition has on the value of the loss vehicle as compared to Average condition. These dollar adjustments are based upon interviews with dealerships across the United States.
