

SB- 1 Project List

Exhibit A

Project Title FY 2026/2027 Annual Pavement Rehabilitation Project

Estimated Project Schedule Construction: January 2027- September 2027

Project Description The pavement rehabilitation of the identified existing street segments using one or more of the following methods: (1) cold milling and asphalt concrete (AC) Surface Course; (2) full depth AC removal and re-construction; (3) full depth reclamation including in-place pulverization and mixing of the existing pavement to create a stabilized base, followed by construction of AC base and surface course; (4) Cold in-place recycling of existing pavement, followed by construction of an AC surface course. The scope also includes the addition or repair/upgrade of curbs and gutters, cross gutters, catch basins, and culverts. the installation or improvement of ADA curb ramps and sidewalks, and the replacement or upgrade of traffic striping and pavement markings.

Technology, Climate Change, & Complete Streets Asphalt mix designs include reclaimed asphalt pavement (RAP), which reduces both costs and the energy needed to process new mineral aggregates. Additionally, in-place pulverization and cold in-place recycling methods reuse existing pavement within the new street construction, minimizing the need to haul away old materials and transport new ones, thereby lowering environmental impact. To address climate change, pavement rehabilitation and drainage improvements, such as the repair or upgrade of curbs and gutters, cross gutters, and catch basins, will enhance the resilience of infrastructure to increased rainfall and stormwater flow. The projects will also improve pedestrian safety and accessibility through the installation or improvement of ADA curb ramps, the addition or repair of sidewalks, and the replacement or upgrade of traffic striping and pavement markings.

Estimated Useful Life Projects using cold mill and AC surface course have an estimated useful life of 7–10 years. Full depth reconstruction has an estimated useful life of 20 years.
