COMMISSIONER'S REPORTS

No Commissioner's updates were provided.

Questions & Comments:

Commission Kobbe asked if any members of the public who were present would like to speak.

◆ Public Comment#1

Pedro Molina
657 W. Cheshire Street
Rialto, CA

- Mr. Molina asked if Rialto Water Services (RWS) is privately owned or owned by the City of Rialto.
 - Mr. Rossi advised that the City does not own RWS. There is a contract between the City and RWS, and RWS contracts with Veolia to conduct the contract's operations.
- How much of the income from RWS goes to the City? How many of the employees that work for RWS/Veolia live in the City of Rialto? Is there a report that provides this information?
 - Mr. Rossi provided his information to Mr. Molina and advised that he can provide Mr. Molina with the information you are requesting.
- Robert Lee advised that the Utility for Water and Wastewater is City-Owned. Veolia does all of the operations. All revenue received by RWS goes into a separate account for the City of Rialto.

◆ Public Comment #2

Ana Gonzales
2nd Street & Lilac
Rialto, CA

- Ms. Gonzales stated she received a letter regarding lead testing in the water; however, the letter was not clear enough.

In the future, please make sure the message goes out more clearly. Ms. Gonzales also requested that the City make home test kits available for residents.

- Ms. Gonzales requested an update on the City Well that tested positive for Arsenic.
- ◆ Chair Rickman requested a copy of the letter that went out to residents regarding lead & copper testing.

Monthly Activity Report for City of Rialto Waste Management Services

BACKGROUND:

The City of Rialto Municipal Code Chapter 2.24 establishes and defines the Rialto Utilities Commission. The responsibilities assigned to the Commission include acting “as an advisor to the City Council and City Administration regarding solid waste policies, recycling, source reduction, and other related state mandates.” This report provides general information to the Commission on the activities and events for the Maintenance and Facilities Department’s Waste Management Division.

ANALYSIS/DISCUSSION:

Items relating to the City’s Solid Waste Management services and of interest to the Commission are as follows:

- **Hazardous Household Waste** - During the month of December:
 - 136 residents served,
 - 265 gallons of used motor oil,
 - 4 pallets of paint,
 - 5 drums of miscellaneous poisons and other toxic liquids,
 - 4 barrels of sharps, including needles, lancets, and syringes used by residents for their home healthcare and medical needs

During the month of January, the Household Hazardous Waste site was open on 10th and 11th and will be open on January 24th and 25th from 8 am until 12 noon.

- **Burrtec Waste Tonnage Report** - Tonnage report has been included as an attachment to this report.
- **Community Clean-Up Day** -
 - January 25, 2025
 - 8 am to 2 pm

Activities Include:

Used Tire Collection
Household Hazardous Waste Drop-off
Electronic Waste Drop-off
Personal Document Shredding
Salvation Army Donation Drop-off
Trash, Bulky Items, Green Waste Drop-off

- **E-waste Recycling Revenue:**

E-Waste Recycling Revenue

IV. CONSUMPTION & BILLING

A. Consumption

Water consumption has increased by 15.5% when compared against previous month. When compared against last year, consumption has increased by 30.6%. Previous 6 months is showing trend of increase in water consumption.

B. Billing

A total of 22,571 bills were mailed or sent out electronically in November. Billing accuracy was 99.96% with nine (9) requiring adjustments.

V. REVENUE & AGING

A. Revenue

Water revenue has increased 10.8% when compared against the prior month and increased 19.9% when compared against previous year. Sewer revenue has increased by 2.1% compared to the prior month and increased by 4.9% from last year. Please consider that revenue from water consumption is smaller than monthly water base charges.

B. Aging

The total aging balance has increased by 36.2%, *see first table below*. For balances >30-days only, water has increased 22.0% and wastewater has increased by 23.4%.

C. Bad Debt

13 (thirteen) accounts were sent to collections for a total amount of \$3,058.53. These collections arise when renter or property owner move out without paying their bills.

VI. SERVICE ORDERS

268 service orders were initiated by the customer service team during the reporting month. Of this total, 62 service orders or 23.1% were due to occupant changes.

151 service orders were initiated to accommodate water disconnection for non-payment and reconnection of water services when customer set up (or reinstate) a payment arrangement with down payment.

VII. OTHER ACTIVITIES

Number of physical disconnection has increased to about 20-30 accounts per week. This number is similar to quantities prior to Covid-19 pandemic.

VIII. REVENUE REPORT

A. Revenue Summary

Cash Revenue is compiled and reconciled to the merchant account on a daily basis. Cash receipts and deposits are made daily and internal controls are reviewed regularly to ensure safeguarding of assets and proper recording of all transactions. Total revenue collected in November 2024 is \$3,234,000 Non-Rate Revenue is \$527,000; Utility Revenue is \$2,515,000 and Tax / Ambulance Revenue at \$192,000.

RWS collects Utility User Taxes and Ambulance Fees on behalf of the City of Rialto. The Utility User Tax (UUT) rates are based on the total billed amount, therefore the collection fluctuates as billed amounts change. The total UUT charges collected in November 2024 and November 2023 are \$187,000 and \$223,000 respectively. Ambulance Revenue is also collected on behalf of the City of Rialto totaling \$4,000 in November 2024 and \$4,000 in November 2023.

B. Non Rate Revenue - Extraterritorial Customers

RWS bills the City of Fontana \$123,000 each month for extraterritorial sewer usage.

Colton Unified School District is in agreement with RWS to pay \$5,000 monthly for sewage connections based on enrollment rates provided each school year.

An extraterritorial agreement to provide sewer service was executed between the City of Rialto and the County of San Bernardino—County Service Area 70, Zone BL (Bloomington). This housing development project generates extraterritorial sewer service revenue of \$19,000 per month.

The City has an agreement with Social Science Services dba Cedar House Life Change Center to provide extraterritorial sewer service providing sewer revenue of about \$8,000 each month.

C. Non-Rate Revenue – Other

Other revenue is generated by leasing space for cell towers to AT&T, which has two leases at \$2,073 and \$1,500. Sprint lease is at a currently contracted rate of \$1,700 each month. Vertical Bridge also provides \$2,400 a month of cell tower generated Revenue.

Rialto Bioenergy Facilities subleased a City property for \$10,500 a month.

The City and San Bernardino Valley Municipal Water District have entered into a Brine Line Capacity Agreement on November 23, 2021. This agreement pertains to the use of its interest in the SARI Line and discharge of certain brine waste to the SARI Line exclusively from the operation of Rialto Bioenergy Facilities within the City's boundaries. The revenue generated in this agreement consists of quarterly rent of \$37,500 along with the Fixed Pipeline Capacity Fee of \$3,300 per month and Fixed Treatment Plant Capacity Fee of \$3,300 per month. In addition, a variable fee of any discharge costs are also billed.

The San Bernardino Valley Water District (SBVWD) reimburses RWS for water conservation programs provided to customers. A quarterly bill is delivered directly by the City.

D. Development Impact Fees

Development Impact Fees ("DIF") are paid to the City of Rialto as various developments are completed in the City. As such, the City of Rialto receives monies from the various developments, which is then distributed to RWS. There was no DIF payment received in November of 2024.

E. Rialto Basin Water Rights and Leasing

A Standby Water Lease Agreement between Fontana Union Water Company and City of Rialto is in effect. For the Water 2023-2024 Water Year, RWS received a payment from San Bernardino County the amount of \$332,624 for Standby Charges and Production Charges.

In addition, the County is also billed annually for Rialto Well #3's summertime electricity costs based on peak usage.

RIALTO WATER

MONTHLY OPERATIONS REPORT

I. EXECUTIVE SUMMARY

Highlights of this month's Water O&M report include the following:

- The water distribution network achieved compliance with all permit requirements.
- No sample anomalies that require secondary sampling.
- No significant issues with water availability. The purchasing of water remained consistent and daily equalization tanks levels remained at anticipated volume for customer availability.
- The Preventative Maintenance Program, as well as Valve Exercising, continues to identify areas of focus for our Routine Repair and Replacement.

A. Water Production Totals

Total water delivered into the Rialto system this month was 802.79 acre-feet. 590.41 acre-feet was delivered into the system from the groundwater wells (City 4A production is included in the well total). 95.78 acre-feet was delivered via the BLF transmission system (City 4A production has been deducted). 116.60 acre-feet came from the OPRTP.

B. Static Water Levels

All City of Rialto wells are sounded each month, both active and inactive well sites. Depth-to-water is measured from the well head to the static water surface. Increases in depth-to-water represent a decrease in static water level.

C. Violations

No violations were received during this reporting period.

D. Source Water Total Dissolved Solids (TDS)

Veolia has a goal of maintaining an acceptable blended TDS level between all its sources. This goal is achieved by shifting production to or from the lowest TDS wells or purchased low TDS water while adhering to the overall water supply strategy and meeting system demands. The TDS was 214 mg/L for the month of November as compared to 256 mg/L in October. The TDS levels are below the secondary maximum contaminant level requirements.

*A lost time incident has not occurred in the past 4066 days.

IV. CHEMICAL USE

Sodium hypochlorite is the only chemical added to the water system. A total of 2322 gallons of sodium hypochlorite was used in November as compared to 2822 gallons used in October.

V. ELECTRICAL USE

Southern California Edison (SCE) has not provided all the data for November 2024. We will provide the data as it is received, thus will include yearly usage received to date.

VI. WATER QUALITY COMPLAINTS

No complaints were received during this reporting period.

VII. OPERATIONS UPDATE

The overall operational strategy is to meet the daily water demand. The City of Rialto water system has six operational wells, one of which is owned by the County of San Bernardino and operated by Veolia; Oliver P. Roemer Treatment Plant (OPRTP), which is jointly owned by the City (25%) and West Valley Water District (WVWD); purchased water through the Baseline Feeder (BLF) system from San Bernardino Valley Municipal Water District (SBVMWD); and, if required to meet demand, additional water can be supplied by the City of San Bernardino (CSB) through the BLF for emergency supply only with no guarantee of actual delivery. Water produced from City Well 4A discharges into the BLF and its production is included in deliveries from that shared transmission line when City Well 4A is in service.

The overall pumping strategy is based on adjudicated rights, well availability, remediation requirements, and quality of source, cost to operate, and varying weather conditions. TDS effluent concentrations for the City of Rialto WWTP are taken into consideration when operating the facilities and water sources.

A. Operational Wells

All wells were operational.

B. Valve Activity

On the basis of information collected in 2019, Veolia now has a baseline assessment of all valves and has initiated a new cycle of valve exercising. 23 valves were exercised for the month of November.

C. Hydrant Flushing

There are 63 hydrant/dead ends that are flushed annually to maintain water quality. Five flushings were performed in November.

D. Sanitary Survey

The last sanitary survey was completed by the Department of Drinking Water (DDW) in 2015. Veolia has reviewed all the regulatory conditions required and is prepared for the sanitary survey. DDW performed field site visits on May 22 and August 22, 2024. The results of the sanitary survey were received on September 19, 2024. Veolia will reach out to DDW regarding the minor deficiencies.

VIII. ASSET MANAGEMENT

The following work orders were completed for the month of November:

- Preventive Maintenance –15
- Corrective Maintenance –1
- Predictive Maintenance –0

48– PMs planned for December 2024

A. Main Breaks, Service Leaks, Adverse Water Quality and Health/Safety Issues

Corrective Work Order labor hours were dedicated to seven pipe line and two hydrant repairs.

B. Major Equipment and/or Machinery Outages

All wells were operational.

APPROVAL: John Rossi, Interim Utilities Director

FROM: Nicole Hemmans, Senior Administrative Analyst

Previous Discussion Update.

Update on Lead Copper Regulation Rule (LCRR).

Lead Copper Rule Regulation UPDATE

DEADLINE: The Lead Service Lines (LSL) Inventory was due to the Department of Drinking Water (DDW) on October 16, 2024. The City of Rialto's inventory was submitted to DDW on October 15, 2024, with a final updated report submitted on 12/16/24. DDW approved the Lead Service Lines Inventory on 12/18/24. (Inventory included as Attachment 2)

Required Notifications sent within 30 days after DDW approval of inventory submission. Notifications were mailed on 11/8/24, and an additional 233 notices went out on 12/18/24 (Notification included as Attachment 3).

☐ **Field testing** of 812 service lines commenced on the first week of November with a completion date of 1/21/25. There haven't been any results of lead or copper detected thus far.

☐ **Annual Notifications** are required until the inventory is completely free of lead.

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER SERVICE LINES

Este informe contiene información muy importante sobre su agua potable.
Tradúzcalo o hable con alguien que lo entienda bien.

As required by U.S. EPA, City of Rialto has identified that your water service connection is considered a lead status unknown service line.

The City of Rialto recently conducted an inventory of all water service lines, which is the pipe that connects your home, building, or other structure to the water main. The purpose of the inventory is to identify the material of these service lines and fittings, including the customer-owned side of the water service line.

The pipe that connects your home, building, or other structure to the water main was identified as an unknown material. Though it is unlikely that your service line contains lead, lead service lines or certain galvanized pipes can potentially place you at risk for exposure to lead; therefore, this line will need to be identified.

The City of Rialto routinely monitors for lead in the distribution system and the most recent water sample results received on August 13, 2024, showed that the 90th percentile of all lead levels measured in the distribution system was $<0.015 \text{ mg/L}$. The action level for lead in drinking water is 0.015 milligrams per liter (mg/L) or 15 micrograms per liter ($\mu\text{g/L}$).

The most recent water sample results do not exceed the action level of 0.015 mg/L for lead.

Is my water affected?

*** If you received a separate notice instructing you to not drink, boil, or avoid drinking your water, then please continue following those instructions until you are instructed to do otherwise.**

If you **did not** receive any separate notice:

- This is not an emergency.
- Your water is safe to drink and meets federal and state safe drinking water

standards.

- You do not need to use an alternative water supply (e.g., bottled water).

What about my service line?

- If your service line is categorized as a lead status unknown composition, you can help your public water system identify your service line material.
 - EPA has developed an online step-by-step guide to help people identify lead pipes in their homes called Protect Your Tap: A Quick Check for Lead. (<https://www.epa.gov/ground-water-and-drinking-water/protect-your-tap-quick-check-lead>)
 - Other organizations have also provided tools to identify service line material, such as the LSLR Collaborative (<https://www.lslr-collaborative.org/identifying-service-line-material.html>)
- Inform us immediately if you plan to alter or replace your service line because we may be required to replace the system portion.
- Please contact us immediately if you feel that we have incorrectly categorized the service line material.

To inform us if your service line has been incorrectly categorized to share any information you may find about your service line, or to inform us of your plans to alter or replace your service line, contact the *City of Rialto* or *Rialto Water Services* at the phone number or email provided below:

What happens next?

The City of Rialto has identified approximately 1/6 of the service lines in our service area and have determined they are not lead service lines. We are continuing to verify the remaining service lines and will notify you if yours is lead or galvanized-requiring-replacement (GRR).

Lead Related Health Information

- *Exposure to lead in drinking water can cause serious health effects in all age groups. Infants and children can have decreases in IQ and attention span. Lead exposure can cause new learning and behavior problems or exacerbate existing learning and behavior problems. The children of women who are exposed to lead before or during pregnancy can have increased risk of these adverse health effects. Adults can have increased risks of heart disease, high blood pressure, kidney or nervous system problems.*

- If you have concerns about your water quality, the State Water Board's Environmental Laboratory Accreditation Program has a [map of laboratories](https://www.waterboards.ca.gov/drinking_water/certlic/labs/) that can test your water at the consumer's expense, which can be found at:
https://www.waterboards.ca.gov/drinking_water/certlic/labs/
- If you still have health concerns from potential lead exposure in your drinking water, there are point-of-use (POU) devices that can be used on your drinking water taps to provide an additional barrier of protection. A list of these residential treatment devices can be found at:
https://www.waterboards.ca.gov/drinking_water/certlic/device/watertreatmentdevices.html
- If you have other health issues concerning the consumption of this water, you may wish to consult your health care provider.
