On February 16, 2021 I made a verbal complaint to Rialto Police Chief Mark Kling that I had been informed that a Confidential informant a whistle blower, who is a current employee of the City of Rialto had been told by a member of the Rialto Fire Department that he had been involved in investigating myself (Ed Scott a Rialto City Councilmember) to determine my residency and property I owned in Kernville California and other information related to my personal life and background.

In addition, I informed Sean Greyson, acting City Manager and Fire Chief that such an allegation had been made about the Rialto Fire Department. At which time he informed me that the only person in the fire Department who would have Clets access and would have done this. The name of this person shall not be disclosed at this time however the whistle blower has named the same individual as the person who told them they had done this.

I have direct knowledge that for a person in Rialto Fire Department to have been able to run my information would had to of requested it be done by going to a Rialto Police Sargent, higher rank or another agency. Additionally, it can only be done for a legitimate law enforcement purpose and have a case number assigned to it. None of this exists.

Since making a complaint I have been advised by the Rialto Police Department that there is an ongoing investigation into this and that in fact my information has been run several times for reasons not for legitimate law enforcement purposes, under my various names and nick names and that it has been referred to the District Attorney OF SAN BERTNARDINO COUNTY.

These acts while unknown specifically to me until a whistle blower came forward on February 16, 2021 and were later confirmed by the Rialto Police Department were the Illegal acts under a previous police Chief and Administration. Based on information I have received I believe that other members of the City Council may have had similar acts committed against them.

I believe this behavior to be in violation of my civil rights under the Constitution United States and the Constitution of the State of California and its codes.

I also believe that it was done for the intended purpose of manipulating elections and contracts negotiated by City of Rialto Management and then ratified by the Rialto City Council. This is a pattern of conduct which has not been uncommon in the City of Rialto and was discovered in prior years by the FBI as a result of improper acts within the Rialto Police Department. Additionally, these illegal investigations may have been used to attempt to influence lawsuits against the City of Rialto.

These illegal acts have created a hostile environment for me and others. Additionally, being a person with severe health problems it has caused my life to be stressful and created an environment of fear. As a result of this behavior, I have been hospitalized on several occasions.
