DESCRIPTION OF THE CLAIMANT.

# Maria Irma Martinez City of Rialto

#### Place of Accident

On Ayala Drive, north of Leiske Drive in Rialto, CA. At approximately 9:15 PM.

## How did Damage or Injury Occur

Officer Michael Duke was driving southbound in an On-Duty Emergency Vehicle on Ayala Dr in the No.1 lane. Ms. Martinez was also southbound on Ayala Dr in the No. 2 lane. Officer Duke made an unsafe lane change and caused the On-Duty Emergency Vehicle to collide into our client's car.

## What particular act or omission do you claim caused the injury or damage

Legal principles of *respondeat superior* apply to render government entities liable for their employees' torts. The public entity may be vicariously liable for injury proximately caused by its employee's act or omission (*i.e.* negligence) within the scope of employment if the act or omission would otherwise have given rise to a cause of action against the employee. The injury was proximately controlled by the employee's failure to operate the On-Duty Emergency Vehicle in a reasonable manner. The injuries suffered by our client are of a nature reasonably foreseeable from a negligently operated On-Duty Emergency Vehicle.

The Officer's failure to reasonably operate the vehicle is also a direct result of not having received appropriate training or insufficient supervision. The maintenance and training of officers and the On-Duty Emergency Vehicles is a responsibility exclusively in the hands of the City; injuries resulting from an improperly maintained vehicle or improper training are reasonably foreseeable and give rise to the City's liability.

A public entity is liable if the injury occurred on property that it owned or controlled. The injury our client suffered was proximately caused by the employee's failure to operate the On-Duty Emergency Vehicle in a reasonable manner. The injuries suffered by our client are of a nature reasonably foreseeable from a negligently operated On-Duty Emergency Vehicle.

Officer Michael Ruben Duke was negligently entrusted to operate an On-Duty Emergency Vehicle for the benefit of the City. The collision arose during the officer's regular course and scope of his duties. Officer Duke failed to operate their On-Duty Emergency Vehicle in a reasonable manner and as such contributed to the collision which occasioned our client's injuries. Police Officers are tasked with keeping the public well-being and are responsible for the public's well-being and as such require specialized training and licenses; as such, they are held to a higher standard of care as compared to a private civilian driver. The City's Officer did not keep a proper look out and did not control their speed adequately and contributed to the collision.
