IV. CONSUMPTION & BILLING

A. Consumption

Water consumption has decreased by 6.9% when compared against previous month. When compared against last year, consumption has increased 1.4%.

Low consumption is due to billing adjustment for a large water bottling company. The City has requested change from Category II to Category III.

B. Billing

A total of 23,031 bills were mailed or sent out electronically in March. Billing accuracy was 99.8% with thirty-two (32) requiring adjustments after bill generation.

V. REVENUE & AGING

A. Revenue

Water revenue has decreased 3.8% when compared against the prior month and increased 1.4% when compared against previous year. Sewer revenue has decreased by 2.2% compared to the prior month and increased by less than 1.0% from last year.

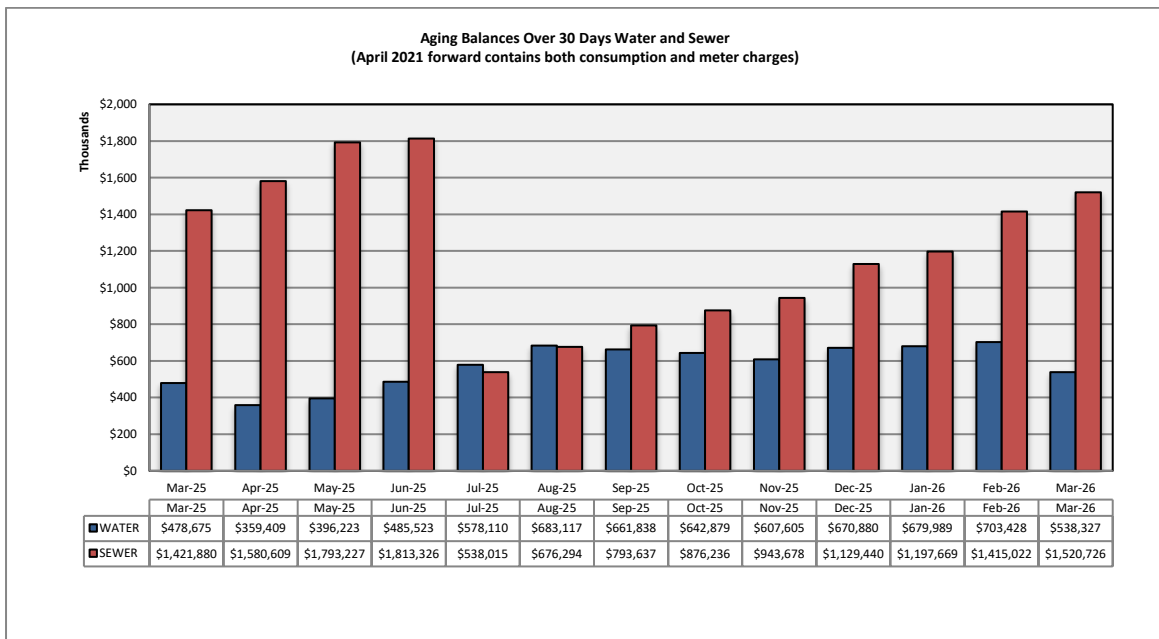

Please consider the scale of the graph as doubled height does not mean double the amount)

B. Aging

The total aging balance has decreased by 6.6% *see first table below*. For balances >30-days only, water has decreased 23.5% and wastewater has increased by 7.5%. Sewer balances are expected to continue rising until tax roll in year 2026.

C. Bad Debt

Seven (7) accounts were sent to collections for a total amount of \$4,114.39. These bad debts arise from customers moving out or selling the property and not closing the account with final payments.

VI. SERVICE ORDERS

361 service orders were initiated by the customer service team during the reporting month. Of this total, 87 service orders or 24% were due to occupant changes.

230 service orders were initiated to accommodate water disconnection for non-payment and reconnection of water services when customer set up (or reinstate) a payment arrangement with down payment.

VII. OTHER ACTIVITIES

CS department is operating with full staff with no injuries reported.

Total numbers of 128 disconnections were performed during the March 2026.

VIII. REVENUE REPORT

A. Revenue Summary

Cash Revenue is compiled and reconciled to the merchant account on a daily basis. Cash receipts and deposits are made daily and internal controls are reviewed regularly to ensure safeguarding of assets and proper recording of all transactions. Total revenue collected in March 2026 is \$4,757,000 whereas Non-Rate Revenue is \$212,000; Utility Revenue is \$4,486,000 and Tax / Ambulance Revenue at \$59,000.

RWS collects Utility User Taxes and Ambulance Fees on behalf of the City of Rialto. The Utility User Tax (UUT) rates are based on the total billed amount, therefore the collection fluctuates as billed amounts change. The total UUT charges collected in March 2026 and March 2025 are \$54,000 and \$90,000 respectively. The large variance in collection of UUT charges is due to the City exempting UUT charges to the Residential customers beginning January 2025 through December 2025. Ambulance Revenue is also collected on behalf of the City of Rialto totaling \$5,000 in March 2026 and \$5,000 in March 2025.

B. Non Rate Revenue - Extraterritorial Customers

RWS bills the City of Fontana \$133,000 each month for extraterritorial sewer usage.

Colton Unified School District is in agreement with RWS to pay \$5,000 monthly for sewage connections based on enrollment rates provided each school year.

An extraterritorial agreement to provide sewer service was executed between the City of Rialto and the County of San Bernardino—County Service Area 70, Zone BL (Bloomington).

This housing development project generates extraterritorial sewer service revenue of \$20,000 per month.

The City has an agreement with Social Science Services dba Cedar House Life Change Center to provide extraterritorial sewer service providing sewer revenue of about \$5,000 each month.

C. Non-Rate Revenue – Other

Other revenue is generated by leasing space for cell towers to AT&T for \$2,073. Sprint lease is at a currently contracted rate of \$2,000 each month. Vertical Bridge also provides \$2,400 a month of cell tower generated Revenue.

Rialto Bioenergy Solutions subleased a City property for \$10,750 a month.

The City and San Bernardino Valley Municipal Water District have entered into a Brine Line Capacity Agreement on January 23, 2021. This agreement pertains to the use of its interest in the SARI Line and discharge of certain brine waste to the SARI Line exclusively from the operation of Rialto Bioenergy Facilities within the City’s boundaries. The revenue generated in this agreement consists of quarterly rent of \$37,500 along with the Fixed Pipeline Capacity Fee of \$3,300 per month and Fixed Treatment Plant Capacity Fee of \$3,300 per month. In addition, a variable fee of any discharge costs are also billed.

The San Bernardino Valley Water District (SBVWD) reimburses RWS for water conservation programs provided to customers. A quarterly bill is delivered directly by the City.

D. Development Impact Fees

Development Impact Fees (“DIF”) are paid to the City of Rialto as various developments are completed in the City. As such, the City of Rialto receives monies from the various developments, which is then distributed to RWS. There was no DIF payment received in March of 2025.

E. Rialto Basin Water Rights and Leasing

A Standby Water Lease Agreement between Fontana Union Water Company and City of Rialto is in effect. For the 2024-2025 Water Year, RWS billed San Bernardino County the amount of \$349,264 for the Standby Charges and Production Charge. The County paid and has no further Water Lease obligations in the current year.

In addition, the County is also billed annually for Rialto Well #3’s summertime electricity costs based on peak usage.

B. Static Water Levels

All City of Rialto wells are sounded each month, both active and inactive well sites. Depth-to-water is measured from the well head to the static water surface. Increases in depth-to-water represent a decrease in static water level.

B. Violations

No violations were received during this reporting period.

C. Source Water Total Dissolved Solids (TDS)

Veolia has a goal of maintaining an acceptable blended TDS level between all its sources. This goal is achieved by shifting production to or from the lowest TDS wells or purchasing low TDS water while adhering to the overall water supply strategy and meeting system demands. The TDS was on average 257 mg/L for the month of March as compared to 267 mg/L in February. The TDS levels are below the secondary maximum contaminant level requirements.

IV. CHEMICAL USE

Sodium hypochlorite is the only chemical added to the water system. A total of 2888 gallons of sodium hypochlorite was used in March as compared to 2082 gallons used in February.

V. ELECTRICAL USE

Southern California Edison (SCE) data for March 2026. We will provide the data as it is received, thus will include yearly usage received to date.

VI. WATER QUALITY COMPLAINTS

No complaints were received during this reporting period.

VII. OPERATIONS UPDATE

The overall operational strategy is to meet the daily water demand. The City of Rialto water system has six operational wells, one of which is owned by the County of San Bernardino and operated by Veolia; Oliver P. Roemer Treatment Plant (OPRTP), which is jointly owned by the City (25%) and West Valley Water District (WVWD); purchased water through the Baseline Feeder (BLF) system from San Bernardino Valley Municipal Water District (SBVMWD); and, if required to meet demand, additional water can be supplied by the City of San Bernardino (CSB) through the BLF for emergency supply only with no guarantee of actual delivery. Water produced from City Well 4A discharges into the BLF and its production is included in deliveries from that shared transmission line when City Well 4A is in service.

The overall pumping strategy is based on adjudicated rights, well availability, remediation requirements, and quality of source, cost to operate, and varying weather conditions. TDS effluent concentrations for the City of Rialto WWTP are taken into consideration when operating the facilities and water sources.

A. Operational Wells

City well #2 will be out of service for 4 weeks to replace the upper pump column bearing; will return into service by March 2026. City well #2 returned to service on March 10th

Valve Activity

On the basis of information collected in 2019, Veolia now has a baseline assessment of all valves and has initiated a new cycle of valve exercising. **Five** valves were exercised in the month of March.

C. Sanitary Survey

DDW performed field site visits on May 22 and August 22, 2024. The results of the sanitary survey were received on September 19, 2024. All minor deficiencies have been corrected and submitted to DDW.

VIII. ASSET MANAGEMENT

The following work orders were completed by Water production staff for the month of March:

- Preventive Maintenance –268
