RBV Investment Group, LLC – 56 Single-Family Residences
SPA No. 2017-0001

I applaud the efforts of the developer to make recommended changes, however, I still find the proposed plans to have the potential to cause problems. 56 homes in that small acreage is still incredibly dense, with an average of 200 plus bedres. Increased traffic will impair ingress & egress on Willow and Riverside Ave, railroad traffic will cause further delays, risking lives with slower responses.
