## 1. PROBLEM STATEMENT

The Rialto Police Department's Traffic division is currently staffed with (1) Corporal, (3) motors and (1) nighttime DUI Enforcement/Accident Investigation (DUI/AI) officer. The four Traffic enforcement officers cover our City (28 sq miles) from 0630 to 0030 hrs Monday thru Friday. These (4) officers are responsible for traffic enforcement, DUIs, and collision investigations. In 2021, our department will be in the position to increase the Traffic division's staffing to (1) Sergeant, (1) Corporal, (6) Motorcycle Officers, (4) DUI/AI investigators and (2) Commercial Enforcement Officers.

The City of Rialto is located in the western portion of the San Bernardino County approximately 19 miles east of the east Los Angeles County line. Rialto's population is over 105,000 residents with an area of about 28 square miles. The City of Rialto sits in the middle of the I-210 to its north, the I-10 to the south, the I-215 to the east and the I-15 to the west. Traversing in and out of Rialto and the surrounding areas, there are thousands of roadway miles (almost 1 million miles driven per year on our roadways) and during most of the day, extremely congested. In the last couple years, Rialto has experienced booms in the construction of homes, large retail complexes, and super warehouses such as Under Armour, Amazon, Target, Niagara Water, Apple, and others. This growth has not only increased the density of the commercial areas, but it brings with it thousands of more trucks, cars, and motorcycles on our roadways causing more congestion, traffic violations, and crashes.

In 2020, the Rialto Police Department issued 8,208 moving, equipment, misdemeanor, and administrative citations. The citations require the subsequent manual entry of citation data into the department's Records Management System (RMS) after which they are hand delivered each day to the Traffic Court in Fontana and the Superior Court in Rancho Cucamonga. The data entry and citation delivery portions of this workflow is a huge drain on our Records personnel.

## 2. PERFORMANCE MEASURES

### A. Goals:

1. Reduce the number of persons killed in traffic crashes.
2. Reduce the number of persons injured in traffic crashes.

### B. Objectives:

1. Purchase and implement a new complete electronic citation solution that includes the capability of exporting data to both a departmental records management system (RMS) as well as the local court records system if and when the local court can receive electronic citation data.

### Target Number

1

## 3. METHOD OF PROCEDURE

### A. Phase 1 – Program Preparation (1<sup>st</sup> Quarter of Grant Year)

- Determine specific system requirements.
- Determine specific equipment requirements.
- Request vendor price quotation per host agency requirements.
- Procure an electronic citation system with the following functionalities:
  - System licensing with installation and training.
  - Ability to import and export to agency RMS files.
  - Ability to perform complete analysis of citation reports.
  - Secure database accessible by appropriate agency personnel.
  - Ability to export complete citation reports to the local county court.

### B. Phase 2 – Program Operations (Throughout Grant Year)

- Select vendor for system development, implementation, and installation.
- Monitor and oversee progress of system/software development.

### C. Phase 3 – Data Collection & Reporting (Throughout Grant Year)

- Prepare and submit invoice claims (due January 30, April 30, July 30, and October 30).

- Successful project completion and confirmation of successful transmission of citations to the local county courts is required before submission of invoice claims seeking reimbursement from OTS.
- Prepare and submit quarterly performance reports (due January 30, April 30, July 30, and October 30).
  - Collect and report quarterly appropriate data that supports the progress of goals and objectives.
  - Provide a summary of quarterly accomplishments and explanations for objectives not completed.
  - Collect, analyze, and report statistical data relating to the grant goals and objectives.

#### **4. METHOD OF EVALUATION**

Using the data compiled during the grant, the Grant Director will complete the "Final Evaluation" section in the fourth/final Quarterly Performance Report (QPR). The Final Evaluation should provide a brief summary of the grant's accomplishments, challenges and significant activities. This narrative should also include whether goals and objectives were met, exceeded, or an explanation of why objectives were not completed.

#### **5. ADMINISTRATIVE SUPPORT**

This program has full administrative support, and every effort will be made to continue the grant activities after grant conclusion.

### **POLICY ON BANNING TEXT MESSAGING WHILE DRIVING**

In accordance with Executive Order 13513, Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to adopt and enforce workplace safety policies to decrease crashes caused by distracted driving, including policies to ban text messaging while driving company-owned or rented vehicles, Government-owned, leased or rented vehicles, or privately-owned vehicles when on official Government business or when performing any work on or behalf of the Government. States are also encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with texting while driving.
